Cyclocross - Annual Report
Annual General Meeting
November 25, 2026

MCA Board Member
Jonathan Borland
Accomplishments
• The 2026 cyclocross season was a success because of the dedication of our race organizers, race officials, our volunteers, and our passionate cross racers. • In 2026 we had two new race organizers in Jordan Bell and Ben Tallin, who took over the Southwood Circle race. This race was extremely successful because of the mentorship that these new organizers received from dedicated fellow race organizers. It is this commitment by a small group of people to make sure that those who want to give back to our sport are successful. • In addition to the success of our new organizers our season was once again anchored by MennoCross, which continues to be the gold standard of cross races in Manitoba. • We also celebrated another successful and exciting provincial championships at Whittier Park, hosted by the FOG cycling club. • The season also saw exciting races organized by the Velodonnas out at Le Barriere Park, King's Cross at King's Park organized by Woodcock Cycle works and Beach Cross at St. Malo, organized by Don Rose and Bikes and Beyond Cycling Club.
Issues Resolved
• N/A
Goals for Next Year
• Outside of the racing we continue to look for new race officials. Announcements were made at all races throughout the season encouraging people to talk to one of our race officials about becoming an official. This is a long term project that we hope yields

results over the next few years.

- Looking forward to 2027 we will be purchasing some new bins to help race organizers move stakes around easier and with improved safety. In addition we will be purchasing some signage to make the race day experience easier for organizers, new racers, and spectators.
