<b>Goals for Next Year</b>	
<p>Youth cycling is of growing interest; how can we increase and grow the sport to improve skills for commuting/transportation, maintain the activity for life, highlight the competition stream and showcase our Manitoban competing in Tokyo Olympics?</p> <ul style="list-style-type: none"> <li>-Hire staff member to administer Youth Development in Manitoba cycling (in addition to KOM coordinator)</li> <li>-Create annual coach workshop</li> <li>-Further investigate coach certification and add features to website for housing the documentation</li> <li>-Identify fresh ideas to enhance programming including skills and games, skills competition, and maintain safe sport for coaches and participants</li> </ul> <p>To support program growth we need additional volunteer coaches at the club level. We need to remove barriers for new clubs across Manitoba. We also need a KOM Director to move youth cycling forward. Thank you to Moni Robertson for her role as coach learning facilitator, the clubs for their leadership in the province and the approximate 100 coaches in the program.</p>
