

Mountain Bike Director - Annual Report
 Annual General Meeting
 November 20, 2020

Submitted By:	John Peters
Updates:	
<p>2020 in review: –2020 has seen no MTB racing due to the ongoing Covid-19 pandemic. All eyes and ears have been on where things are at in regard to safety and Covid-19 restrictions. Unfortunately, Mountain bike season missed the small window of possibility to host any events.</p> <p>-No progress has been made on the race bible. Given the current situation, we will need to consult with the membership to gauge what types of events they will be interested in once we can move past our current restrictions.</p> <p>-I would like to address with the membership via a survey what they would like to see from the 2021 season should have one.</p> <p>-This would have been a fantastic season of new promoters and cup races. The possibilities are very exciting at a number of venues- but currently we are at a stalemate.</p> <p>-LOTB or “Lord of the Bikes” was a hybrid event consisting of Mountain Bike, Road, and Cyclocross. It was held to offer a different type of “fun” event to our membership and to cyclists in general, to come together (socially distanced) and participate in lieu of a normal MTB/CX/Road season. The race was well attended and I believe it showcased the possibility of offering a fun and safe event for all ages given the current Covid-19 Climate.</p>
